The Largest, Handsomest, Juiciest and Most Solid, as well as the Earliest Tomato in Existence.

Never before in the history of the gardening world has such an enormous yielding Tomato been produced. Never before has the Press and Public

been so aroused over a new product, as they are now over our NEW WONDER MAGNUS TOMATO. It will revolutionize this wonderful industry, mato Growing," throughout the civilized world. A Tomato, superior in earliness, superior in size, superior in yield, superior in flavor, in fact, many times superior in quality to its nearest rival, is

Read What Other Growers Say.

"Your New Magnus Tomato is without exception the finest, largest, handsomest and best Tomato I ever saw, and I have been growing Tomatoes for the past 23 years."—J. E. STUNWELL, Kansas City, Mo.

"The Magnus Tomato Seed I purchased from you has completely taken our neighborhood by storm. They are solid and of excellent flavor and grow almost as largs as pumpkins."

W. M. LOOMAN, Oskaloosa, Terea. Toqua.

"Every grain of seed I purchased from you has turned out marvelous, and say! that New Magnus Tomato Seed is a wonder. It raised the biggest and nicest Tomatoes we ever saw in this country, and I make more money from that patch than on all of my other garden combined." —N. V. DOLLIVER, Grand Island, Neb.

MR. W. H. RICHARDS.

Wilburion, I. T., Grower of this Mammoth Tomato. Read What You Will Say After You Have Grown Our New Wonder Magnus Tomato.

You will say it is the Greatest Tomato you ever saw. You will say "I wish I had discovered that New Wonder years ago, I would now be rich." What you say will be true, but re-member, "It is better late than never." So do not delay. Sit right down and order today. You never have had such an opportunity before to make money as we offer you now. You cannot lose with this wonderful yielding To-mato. It is a sure money maker. If you are first to plant them in your neighborhood they will make you fa-mous as a Tomato Grower. You may have no fear, no one ever saw such big,

bound to, and will in the future, be recognized everywhere as the "KING" of all Tomatoes. Are you going to be one of the fortunate growers that will make dollars in abundance this season by growing this NEW WONDER TOMATO? If so, we urge you to order your seed at once. If you delay, you may not obtain it. We know our stock will be exhausted long before the season is over, hence, if you would be one of the LUCKY ones, then order today.

Did you ever stop and think that a one or two pound Tomato is considered mammoth? Then what do you think of a "Six-Pounder?" You will note in Mr. Richards' testimonial that this is no freak, numerous other ones being almost as large on the same vines. We have also received letters and praise from growers everywhere, whose reports are the same as Mr. Richards'

On our own Trial Grounds, before we introduced this variety we knew what the result would be. We knew that this Famous Tomato would give us our well deserved reputation of introducing the Finest Tomato ever offered. This broad statement we backed with our confidence. It is not broad statement we backed with our confidence. It is not necessary to say we WON. Every Gardener, every Trucker who has tried or seen our mammoth offering, knows that we not only WON, but that our New Tomato has captured the entire world. But now,

Read Description.

This Ideal Tomato in richness, flavor and excellence is so much superior to any other known variety (except our new NICHOLS' EARLY CASH Tomato, see Pink Pages) that there cannot begin

to be any comparison. It is of a beautiful, deep, rich red color. almost as solid as a rock, and contains very few seeds. For canning, slicing, cooking or serving in any way, its rich, appetizing flavor cannot be equaled. In fact, it is a Tomato fit for the Gods and a money maker for everyone. Its appearance will command almost double the market price, and it is a Tomato that will always be in Big Demand.

We urge our friends and customers everywhere to plant freely of this New Wonder Tomato this season. Pkt 25c; 1/2 oz 40c; oz 75c; 41b \$2.75 postpaid.

solid Tomatoes before, as you can show them when you have grown a crop of our New Wonder Tomatoes. We are giving everyone a chance to try them. We are not putting the price at one dollar per packet, which it really ought to be; instead we have placed it within the reach of all. Again we say order early and you will thank us when you see the enormous crop of large, handsome, solid Tomatoes you will raise.

We will pay \$25.00 to the party who raises the Largest Tomato grown from our New Wonder Magnus Seed during the Season of 1906, seed to be purchased from us this season. Full report to reach us not later than October 1st, 1906. The winner must be prepared to furnish us with a sworn statement, together with a photograph of the grower immediately upon close of the contest. We want everybody to compete in this GREAT TOMATO GROWING CONTEST.

REMEMBER THE KEY TO

Annual Message to Our Friends and Customers Everywhere:

It is with the utmost gratitude that we hand you herewith our beautiful, new, enlarged up-to-date Seed Annual and Garden Guide. It has been thoroughly revised, and we send it out with a feeling of pride, knowing it will merit your approval and gain from you your hearty endorsement upon everything within its covers.

It is needless to say the past season was one of the most successful in our career. From coast to coast, as well as from every civilized country, "Pure and Sure" seeds were in universal demand, and at the present writing the gratifying reports which we are daily receiving insures us this season with a two-fold growth over all preceding years. To our thousands of customers who have already used our celebrated "Pure and Sure" seeds, it is not necessary to urge them to continue, as they could not be induced to do otherwise; but to you who receive this catalogue, and are not already a customer, we appeal to you, for mutual benefit, to send us your order, and do it now.

SEED HOUSE, as well as the foreman of each department, into whose hands your order will pass during the filling process. A though you were here ordering in person. Our commodious quarters, together with our shipping facilities from St. Louis, is a guarantee that rapid delivery of your order to you is assured.

Our One Aim Isto supply you not only a commodious quarters.

Our One Aim

Is to supply you not only with seeds at the lowest possible price, but with seeds that are "Pure and supply you not only with seeds at the lowest possible price, but with seeds that are "Pure and supply you not only with fresh, live seeds at wholesale prices.

We sell direct to you—not to your grocer. We save you his profit, and supply you with fresh, live varieties, which is the most important thing the gardener must look forward to this season. We have reduced our Sweet Corn, Peas Our new offerings on the pink pages, like the hundreds of other offerings in this book, will be found true to description and the best in their respective classes. To our many friends who desire to order in other language than the English, we beg to say our competent staff of order clerks will fill your order complete no matter in what language it is written. Our different catalogues, which we issue throughout the year, including Bird, Fish and Buib catalogues, as well as our monthly Price Currents on farm seeds, last your service, and we will gladly mail you copies of the ones you desire. Kindly specify on your order and the same shall have our attention.

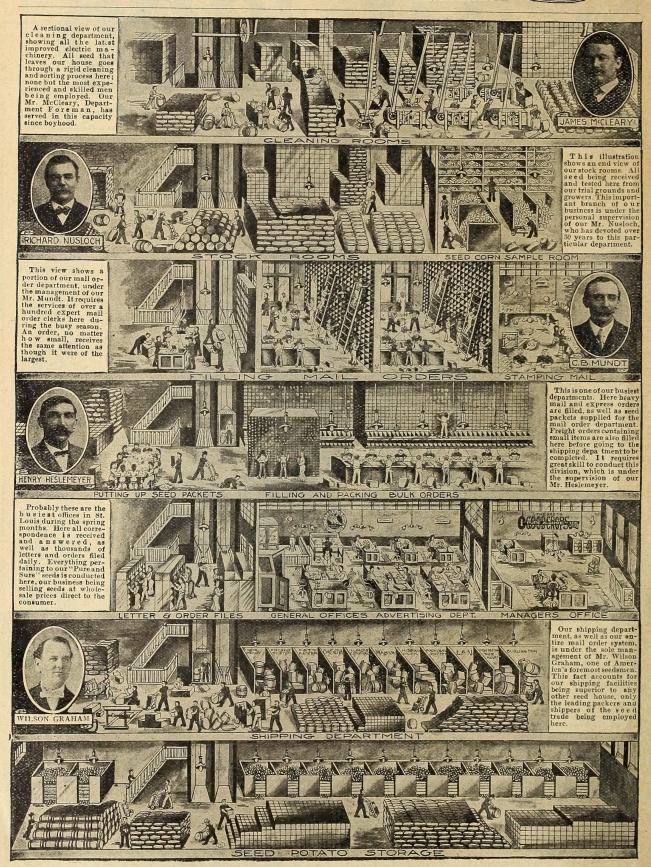

Again we thank you one and all for your past patronage, and earnestly soliciting a continuance of the same, with best wishes for a happy and prosperous season, which we will both share if you plant "Pure and Sure" seeds, we beg to remain,

OUR TERMS and GENERAL INFORMATION ABOUT ORDERING

AT WE PAY THE POSTAGE ON—We pay the postage on goods priced in this Catalog only where we say "post-paid" after the price of somewhere else on the page. Generally speaking, we pay postage on Vegetable and Flower Seeds in packets, ounces and 4-1bs., also on half pints, pints and quarts where specified and on Bulbs where noted. Seeds ordered at freight or express prices cost you 10c extra per pound for postage when requested sent by mail, which must be remitted when ordering. Mexico and Canada Postage same as United States and possessions.

HOW TO REMIT—Money may be sent at our risk in the following manner: Postoffice order, draft on St. Louis or New York, or by express. Remittances for small amounts may be made in 2c postage stamps. Do not send personal checks, as it will cost us 15c each to collect. In remitting, purchasers will be particular to send a sufficient amount to cover their orders. When only a part is remitted, goods will be sent to the amount of the remittance only.

SHIPPING DIRECTIONS—We deliver our goods to any railroad depot or express office in St. Louis, as you may direct, the purchaser to pay transportation upon receipt of goods, except where ordered at prices including postage for forwarding by mail. Give your shipping instructions plainly, and if none are designated, we shall exercise our best judgment as to forwarding. The day a shipment leaves we always advise by a card through the mail that goods are coming by express or freight. It is often necessary to ship different goods in two separate packages. Frequently we find that goods can be forwarded cheaper and safer by prepaid express than by mail, although you may instruct us to mail them.

ON A "RURAL ROUTE," please see that we have your mail properly directed. If this Catalog was not correctly addressed, please give us your route number.

CHEERFULLY ANSWER ALL QUESTIONS, but always write them on a separate sheet from your order. It will enable us to give you prompt attention.

ABOUT WARRANTING—While we thoroughly test each and every variety, and we positively will not send out any seeds which we do not believe to be "Pure and Sure" in every respect, yet owing to the many contingencies on which the success of any crop depends, such as the weather being too dry or too wer, sowing too deep or too shallow, an attack of insects, etc., hence it would be unwise, folly, for us to guarantee a perfect crop. Therefore, St. Louis Seed Company gives no warranty, express or implied, as to description, quality, productiveness or any other manner, of any seeds, bulbs or plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned, and money which may have been paid for them will be refunded—St. L. S. Co.

Every order for goods named in this Catalog will be executed on these conditions only. This is the same disclaimer as used by other responsible seed houses.

BIG REDUCTIONS IN PRICES—This season we offer you Peas, Beans, Sweet Corn etc., that formerly sold at 8c and 10c per pkt., at only 5c. This includes everything listed in this Catalog at 5c per pkt., postpaid, except where otherwise noted.

EXTRAS with Every Order: We are liberal in the way of free packets. For EXAMPLE: Should your order amount to \$1.00 in packets, we send you five 5c packets free. Should it amount to \$2.00, we send you ten 5c packets free, etc., etc. Hence you will realize that should your order call for \$10.00 worth of packets at Catalog prices, we would add to your order \$2.50 worth of seeds free. This offer is open to our customers everywhere.

SPECIAL—You may add the additional variety of seeds you prefer. FOR EXAMPLE: Remit us \$1.00 for each \$1.25 worth of packets ordered.

[&]quot;I thank you for your promptness in sending us early seed last July when our crop was almost a total loss from the overflow. Am glad to say all seed grew splendidly and enabled us to winter our stock when it seemed almost impossible to make a crop so late in the season. W. H. PEIFER, Fancher, Ill.

If goods ordered from this list are to be mailed, 10c PER POUND or 15c PER QUART must be sent IN ADDITION to THESE PRICES. We pay the postage on one-ounce packages only.

Having previously placed unusually heavy contracts with our private growers for this year's supply of seed, and having also grown an exceeding large quantity of our own private strains, we are not at all inconvenienced by the short crops of many varieties, as are several other seed houses, who have pasted slips with prices, in their catalogs, notifying their customers of the short crop and increase in prices. We are in position to sell at the prices quoted in this catalog, which are WHOLE-SALE DIRECT TO THE CONSUMER, whether it be for an ounce or a car load lot.

REMEMBER—We pay the postage on single ounce packages only listed on this page.

The Flat, Green Podded Bush Bean Without a Rival. The New Bountiful. Bean Offering

A continuous bearer from early spring till late in fall. The wonder of the gardening world. Absolutely stringless, tender beyond comparlson. For yielding it stands in a class by itself. Never before have we seen its equal. Never again do we expect to. Gardeners, truckers, and everyone, this Bean offering is the chance of a life time. You cannot realize the wonderful improvement, until after you have planted it.

The plant is of a remarkable thrifty growth and bears continually for weeks, in fact it is a magic as a bean producer. The frost usually finds late planting still in pod and blossom. It is an excellent shelled bean for winter use. It stands unrivaled for either a home or market Bean: It is not only a "Snap" Bean in nature, but a "Snap" for the grower who is fortunate enough to plant it the coming season. Our supply is superb. Order early. Price: Pkt 10c; ½pt 20c; pt 35c; qt 60c; postpaid.

ST.L.S. CO.'S LONGFELLOW.

(Green Podded Bush.)

This wonderful early, exceedingly prolific, long green podded Bean which we offered a couple of seasons past has met with such wonderful praise and comment that we again offer it as the unsurpassed gardener's favorite. For productiveness and hardiness it transfer second to see the second bardiness it to be a second bardiness it. and comment that we again offer it as the unsurpassed gardener's favorite. For productiveness and hardiness it stands second to none. In fact our customers almost combine in pronouncing it superior to any other Bean they have ever seen. It is perfectly round, straight, solid, and with fleshy pods averaging from 6 to 8 inches in length. It is perfectly stringless when young, with a flavor that is most delicious. It is the Bean that is fast captivating the entire country. Price: Pkt 10c; ½pt 15c; pt 25c; qt 50c; postpaid.

Nichol's Genuine Butter Bean.

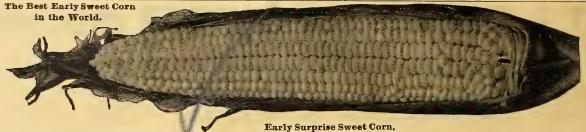

New Bountiful.

The Bean that takes us back to childhood days. We offered them last season for the first time. We could not supply the demand. Our customers write us, "It is the Bean they have been looking for." Gardeners say they made more money from it last season than any thing they ever raised. Remember, it is the original old-time Butter Bean so much sought after by our parents and grand parents years ago. Ask any elderly person. They will tell you that the old-time Butter Bean is by far superior to any Bean raised today. Vines grow very vigorously, and are laden with mammoth wide pods, containing from 3 to 5 Lima Bean offered. It is far superior to them all. "Large White Lima" and "King of the Garden" have been looked upon by many who were not familiar with the type of beans, as the original Butter Bean. This is a wrong theory. There is a vast difference between the Lima Bean of today and the Butter Bean of our forefathers. We offer you now the original. Again we urge you to order early while we have an excellent supply. Remember there are thousands who failed to get them last season, who are going to order early this season. Be one of the first. It is the chance of a life-time to gardeners and truckers everywhere. EARLY SURPRISE SWEET CORN. The Largest, the Sweetest, and Most Luscious Sweet Corn Ever Offere

The world's finest Sweet Corn. Our greatest introduction. We are now ready to give the world a treat, a sugar corn that is so far ahead of anything ever discovered, that we wonder will future introductions ever come in its class. If you are a gardener, or if you are a trucker, when once you have sold a customer "Early Surprise," you have served him with the standard of perfection. It leads, while others follow. It is ready for the table almost as early as the little small early sorts and is fully 50 per cent better. The ears are uniformly large, being compactly filled with big luscious, juicy kernels of the most delicious fiavor and tenderness. It is a toothsome quality in every respect. In short this new variety is peerless and for canning it is superb. The notable merit of this great corn is its mammoth yield its tender remaining qualities; seeming as it does to yield a continuous succession of luscious Sugar Corn longer than any other known variety, hence it is a money maker, an appetite satisfier; in fact it is the wonder of the gardening world in every respect. FRENCH MARKET

A Surprise for You. A Surprise to Us. A Surprise for Everybody. The Only Unrivaled Pea in the World.

French Market, as its name implies, is the coming market pea of the day, originated by a a famous local French gardener and purchased outright by us at an enormous price. It has proven itself in every test to be the *Ideal* second early wrinkled pea. We predict the name and fame of this wonderful variety will go down in history as the marvel of the present age. If you are not a gardener it will pay you to be one. However this new wonder is just as good for home use, while it is a second early; yet it matures almost as soon as the early varieties and remains all through the main crop season. It is sweeter in flavor than any pea we have ever seen. It is an enormous yielder and of robust growth. It is thoroughly acclimated to either wet or drouth. The pods are extra large, the bushes being laden down to their fullest capacity. The handsome pods are always well filled and of uniform size and shape, there usually being from 10 to 15 peas to a pod. We are sure that everyone who tries this new Pea will be delighted beyond doubt. We urge everyone to plant freely of it this season. Height 24 inches. Price: pkt 10c; ½pt 20c; pt 35c; qt 60c; postpaid.

Jersey Cream Lettuce. To lovers of this delicious garden product we now offer you the finest "Buttered" Lettuce ever discovered, To lovers of this deficious garden product we how offer you the finest "Buttered" Lettuce ever discovered, originated by ourselves and now offered for the first time. It is the finest, the most brittle and crisp sort, as well as the most desirable fiavored Lettuce it has ever been our good fortune to see; it is remarkable for holding on through the hot, dry season. The appearance is of such an exquisite hue that market men, hotels and restaurants will gladly pay \$\frac{1}{2}\$ to 50 per cent more for the mammoth, large, solid white creamy heads you can offer them when you grow our new Jersey Cream Lettuce than any other variety you ever before offered; this beautiful lettuce is of the cabbage type, the heads are solid and of great size, the leaves are rich, creamy flavored, hence the name, Jersey Cream Lettuce. Our illustration can but give a very faint idea of this remarkable new variety, in fact it cannot be overestimated, or overpraised, whether for home or market use. It will pay everyone to sow a bed of it this season. Price: pkt 15c; ½oz 30c; oz 50c.

CHINESE Pepper.

The largest and handsomest Pepper in the world, twice the size of its nearrival.

Chinese Giant Pepper is indeed a wonder, it has certainly "knocked-out" all other Peppers, not only in size but in general. Its magnificent appearance makes it a leader wherever appearance makes it a leader wherever shown. The plants are stocky and of the most vigorous growth, growing to a height of about 2½ feet. They are well branched and immensely productive, often six or eight peppers in a cluster, as if in a single bunch. It yields nearly as early as the famous "Ruby King:" Peppers are of a blocky form and of the most pleasing, glossy scarlet coloring. They grow to the cnormous size of 5 to 6 inches across the top. The flesh is very mild and sweet and also very thick. Makes an excellent salad when sliced and served like tomatoes. It is undoubtedly the finest pepper ever offered. Price: pkt 10c; ½0z 20c; oz 35c; ¼1b \$1.00 postpaid.

Mushrooms are one of our greatest specialties. We believe we fill more orders for spawn than any other two houses. Mushroom-growing is fast attaining a front rank as one of the greatest money-making industries. From coast to coast the press is warmly ad-

New White Pearl Forcing Radish.

The Radish without a peer—the Radish without a rival, offered by us last season, it has proven itself "The long felt want."

Gardeners are enthusiastic in praise of its wonderful merits, everyone says they never saw its equal. If you did not try them last season do not fail to do so this year. This wonderful new Radish is of the famous half-stump rooted class. It is of a pearly white, appetizing color, being very crisp and brittle. For a forcing and early marketing Radish it is superior to any other, and will prove a money maker for gardeners everywhere. It does not become hollow or pithy and remains in eatable condition longer than any other Radish before going to seed. Price: pkt 10c; oz 15c; ¼1b 40c; postpaid.

NICHOL'S "EARLY CASH" TOMATO.

Our New Introduction, Originated by the World's Greatest Tomato Specialist, MR. WM. F. NICHOL.

NICHOL'S EARLY CASH TOMATOES.

enormous, bearing as it does, clusters of handsome large fruit of the most delicious flavor, it is the Tomato that stands alone in a class by itself for either the home or market gardeners use, in fact it is the peer of Mr. Nichol's numerous originations.

Read what the Syndicate of Magazines of the United States say in the October, 1905, issue referring to the originators of different vegetables. On Tomatoes, it says in part: "Mr. Nichol not only originated the famous new wonder Magnus Tomato which has astonished the world by attaining the enormous weight of 6 pounds and 2 ounces, but also the famous 'Stone' Tomato as well." The names of those two wonderful varieties tell a sufficient story, as we have become so accustomed to these two delicious garden fruits that without them we would be at a veritable loss. This wizard of the Agricultural world of whom we speak has originated and introduced many other noted vegetables as well. His latest and grandest production however, being our celebrated "Early Cash" Tomato. If you are a gardener or trucker you know what his productions mean. They mean the choicest and finest of the seedman's art. Remember, "Early Cash" will back each and every statement we have made regarding its good qualities. For canning, it is a great, large solid ball of tender delicious meat with but very few seeds; for market it is unequaled in size, unsurpassed in productiveness and for a general all-around Tomato its solidity, quality and sweetness has never been equalled. Need we say more? Be wise, order and do it now. Price: pkt 15c; ½0 z 30c; oz 50c; ½1b \$1.50; postpaid.

"Halbert's Honey" Watermelon.

WATERMELON. The finest melon ever offered for home market or home garden use.

We are again pleased to offer to our

We are again pleased to offer to our many customers this year our own private strain of the famous "Halbert's Honey" Water-melon, which is far superior to any other thin rind melon ever before offered. It is a superby luscious flavor, with a teautiful crimson, appetizing flesh, embodied in a thin white rind with a very dark, rich colored skin, making it a very attractive melon for the market. Melons grow from 18 to 24 inches long and are fully developed, with blunty ends as shown in illustration. Vines grow quickly and produce melons in clusters, thus insuring a large yield. For home use it cannot be surpassed. They are, as their name indicates, "as sweet as honey" and we urge everyone to plant a patch of this wonderful melon this year. Pkt 10c; ounce 15c; % 1b 30c; postpaid.

NEW GREEN ERFURT SPINACH.

Market gardeners, cheer up, at last we are going to please you by offering you the "finest" new variety of Spinach in cultivation. New Green Erfut is distinguished for its supreme hardiness, it being thoroughly acclimated to any section and when other varieties have attained their overseason yellow color, "Green Erfurt" is as green, fresh and crisp as at the beginning of the season; the leaves are very thick, broad and grow in immense clusters, in fact it is a great acquisition and by far the most valuable either for the home or market use. A few plants will supply a family all through the season with the finest 'greens' in cultivation and for hotels and restaurants, they will only too gladly pay you double price for a supply of this new wonderful spinach. Say what we may we cannot do it justice, we urge you to try it yourself and see the beautiful large crop of Spinach you will have to offer to your trade. Price: pkt 5c; oz 10c; ½lb 25c; postpaid.

JUST ONE WORD.

EFORE making out your order we want to impress upon you that seeds purchased from us cannot be excelled by any other firm in the country. We devote our time to looking after our growing crops. We take pains to keep each variety's vitality strengthened, thus insuring our customers with perfect seed. Every variety listed in this catalog is "O. K.," and has our name and recommendation back of it. Our packets contain the amount of seeds quoted at wholesale, not retail, as you have been used to buying heretofore. If you desire to purchase a large amount of seeds it will pay you to compare our bushel prices with other firms' catalogs before ordering elsewhere. All seeds are tested as soon as received from our growers, and any lot that is not perfect is destroyed. We carry on extensive experimental grounds, and you may rest assured that if you are looking for novelties in the seed line we can please you at all times.

SWEET CORN

One Quart will Plant about 200 Hills.

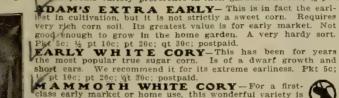

One Peck will Plant about 1 Acre.

HE old version, "without sweet corn there can be no garden," is about true. It hardly seems possible that one could go through the summer season without daily eating a few delicious, crisp, appetizing roasting ears. Our special varieties, which we are offering this season, are superior to any other varieties heretofore known. Sweet Corn should be planted in hills, 3 feet apart for the early varieties, and from 3 ½ to 4 feet for the late sorts. We urge you to take special notice of our new offering on Mink Pages.

MEDIUM EARLY VARIETIES—Continued.

St. Louis Market. This splendid new variety which we introduced 4 years ago, at once sprang into popular favor with the local market gardeners. We had previously been searching for an ideal size and perfect shaped corn for market use, when we discovered this wonderful second early variety. Its large size and attractive appearance make it sell on sight, and its de-Its large size and attractive appearance make it sell on sight, and its de-licious quality, after being prepared for the table, creates a steady demand for it all season. It is as early as Shaker Early, and twice as large. The cob is small, and carries an average of 16 rows. The grains are large and deep and very sweet. It has a peculiar habit of growth that enables it to endure hot weather. A money maker for market gardeners, and a No. 1 home garden sort. Pkt 5c; ½pt 15c; pt 25c; qt 50c; postpaid.

St. L. S. Co.'s "NOXALL" — We pride ourselves upon the wonderful popularity with which this new variety which we introduced two seasons ago has met each season. We have been unable to supply the demand. However, this season we have a large stock, but urge you to order early as there is sure to be a big demand. For market Gardeners and Truckers it is a great money maker, as it will out-sell any other known sort. In short, it is the sweetest, juiciest and most delicious second early sweet corn ever discovered. Very productive and highly recommended for June and July planting. St. L. S. Co. NEW WHITE EVERGREEN—This is without exception the most valuable early sweet corn ever introduced. It is of the same type as the famous "Stowell's Evergreen," only it is snow white, and of appetizing quality. It is so far superior to any other sweet corn, with the exception of our "Noxall," that there cannot begin to be any comparison. Our New White Evergreen is an improved strain of the White Evergreen offered by some other houses. Market gardeners, canners and everyone interested in sweet corn, will be pleased to note that they can now have a long felt want supplied. When in the green state both the grains and cob are as white as crystal. We could fill many pages with the many good points and superiority of this wonderful, new improved strain of sweet corn, but space is limited. Stalks are of a very strong, vigorous growth, six to eight feet high. The ears are extra large, not only here and there, but average larger than any other varlety. USKMELONS-One of the greatest and most appetizing garden fruits. Should be grown in a rich, warm sandy loam, if possible. Or they will thrive in common soil, garden fruits.

loam, if possible. Or they will thrive in common soil, where the watermelon would fail. Hence demonstrating that they are much hardier than the latter sorts. Muskmelons are nearly always in big demand, therefore the grower may feel safe at all times. Plant as soon as the ground has become warm and dry, in hills 5 to 6 feet apart each way, planting 10 to 12 seeds to the hill. A little manure added to each hill produces wonderful results. After the vines have started good, thin out to about 4 to the hill. The ground should be kept well cultivated until the vines grow too long to interfere with.

RADISHES.

One Ounce will sow 100 feet of Drill. Ten Pounds will sow One Acre.

DO YOU THINK that any DO YOU THINK that any amount of mere talking could have induced mil-lions of gardeners to plant 'Pure and Sure' Seeds for overhalf a century if they had not found them super-ior to all others?

ADISH SEED is one of our greatest specialties, well it may be, as no other vegetable is more in demand at all seasons than Radishes. Market gardeners everywhere rely on radishes as one of their main money making crops.

Radishes must be grown rapidly, in order to be crisp and tender, and for a succession of crops, seed should be sown at intervals of two weeks, until September, Light, fresh, sandy loam is the kind of soil in which Radishes thrive best Good Radishes foam is the kind of soil in which Radishes thrive best Good Radishes cannot be grown in heavy soil. They become tough and pithy. The Winter Radish should be sown in the middle of summer. It makes its best growth in the autumn months. Winter Radishes buried in pits out of doors or in earth in a cool cellar will keep delicious and crisp all winter. Sow in drills one foot apart. Thin to about 3 inches apart, after the rough leaves make their appearance.

NOTE.—Our Radish Seed is French Grown.

Nowhere else in the world is such Fine Radish Seed grown as in Southern France. It is known as the natural home of Radishes. We have our own private growers there whose seed will produce better, smoother and more tender Radishes than seed from any other growers.

TOBACCO.

VERYONE should raise their own supply of tobacco. It is something that is neglected by users of the weed to a great extent. Stop and figure up the cost of your tobacco expense for one year. It will suprise you. If you sow a few packets that unnecessary expense is saved, and that is not all; you get purer tobacco from your own garden than that which you buy. Do not fail to add a few packets, to your order this year. Mix in pulverized wood ashes with the soil, sowing the seed very shallow. After the plants are about six inches high transplant into rows about 3½ feet apart.

A good way is to burn brush on the ground you intend to sow seed in.

THE WORLD IS INTERESTED IN THE CORN QUESTION.

A Few Facts and Figures.

ORN AND FARM SEEDS are our great specialties, and well this important branch should be, as the farm crop is the most dependent to the industry and welfare of our great nation. So is our house the most dependent to the coin growers throughout the country. We are now recognized as **America's**

Greatest Corn Introducers, and why not? In the past couple of years we have originated more new successful varieties than any other two houses combined, but what we want to get at is a few facts and figures, and then leave it to

yourself to judge and act accordingly. CORN CROP 1904, 1904 the corn crop of the United States yielded 2,467,480,934 bushels, valued at \$1,087,461,440. 2,467,480,934 Bushels Value, \$1,087,461,440 CORN CROP 1905. (Estimated) 3,000,000,000 Bus. It Pays to Plant Our New Offerings

The 1905 crop is estimated at 3,000,000,000 bushels, or an increase of 667,480,934 bushels. Were you one of the prosperous growers to help yield this increase? If you planted your old, worn out home varieties you were not. but if you were one of the fortunate ones to obtain seed from us last season, you can credit yourself as doing

your share toward the welfare of the country, as well as increasing your bank account three fold from the same amount of land. No talk is necessary to convince the intelligent

farmer the necessity of planting our new offerings if he contemplates a better and larger yield than hereto-

you with the choicest handpicked, secret process dried seed corn, and know that when once you have tried our famous new varieties listed on the following pages, you will have no other. Hence for mutual benefit let us work together. We will sup the seed. You plant it. We will supply

NICHOL'S GOLD BOND.

THE GREAT NINETY-FIVE DAY CORN.

The earliest big Yellow Corn in existence. The Corn that won the hearts of over 100,000 Corn growers last year. Were you one of them?

Little did we think last season when we offered this big early yellow corn that it was going to create such a demonstration throughout the country as it did. Why, just think, we were compelled to work day and night to all the orders that poured in from all quarters and the reports which we are now receiving—at this writing—are simply astonishing. From 200 to 250 bushels per acre seems to be its yield. Everywhere it has proven itself the. most marvelous and extraordinary corn ever discovered.

READ THE REPORTS. JUDGE FOR YOURSELF.

IOWA-275 Bushels Per Acre.

Mr. Daniel Cunningham, Washington Co., Ia., says: "Your Gold Bond is the great-orn ever seen here. It ripened in 93 days with a yield of over 275 bushels per acre."

NEBRASKA-263 Bushels Per Acre.

Mr. Roy Farrell, Richardson Co., Neb., says: "Hurrah for Nichol's 'Gold Bond.'
The seed I purchased from you last spring was the finest I ever saw. The yield was almost beyond my cribs' capacity, 263 bushels per acre."

READ DESCRIPTION. Stalk grows to a height of 8 to 10 feet; ears grow midway, hence making it easy to pick; all stalks are heavy ear yielders, there being no barren stalks, as is the characteristic of many other yielders, there being no barren stalks, as is the characteristic of many other noted varieties; ears grow 10 to 12 inches long, being very thick and uniform in appearance, with 18 to 20 rows of very deep yellow kernels, set on a very small red cob, and well filled over the tips, being capped with a snug-fitting husk, thus insuring it "Frost Proof" in the lowland districts. The leaves grow broad and long, which makes it an ideal fodder corn after husking. This corn is not only good for certain sections, it is good for any climate where corn will grow, North, East, South or West, For high or lowlands, it is the best. Do not fail to give it a trial this year. You will never have known the pleasure of growing Big, Early, Yellow Corn until you have tried this variety.

The stalks grow medium tall, thick and heavy; the ears grow just the right height for husking; ears grow very long, thick and heavy; the cob is exceedingly small, and the big, rich, golden yellow grains are closely netted together. The yield being enormous, it is without doubt the corn everybody has been looking forward to. We could not believe ourselves until after we had seen the big stalks laden days with ears of mean forward to. We could not believe ourselves until after we had seen the big stalks laden down with ears of mammoth size. You must see it grow in order to appreciate its superiority over all other varieties. We wish we had space to devote to the many good points this corn contains which is minus in other famous sorts. In short it is supreme, and as a drouth resisting corn it cannot be equalled. Again we say order early, and beware, you cannot procure this corn from any other house, as we control all stocks. OUR OWN SPECIAL INTRODUCTION.

READ! READ!

Nichol's Golden Chief is not only the grandest and largest early yellow corn in the world, but is the most productive as well. Brother Farmer, can you doubt the above assertion? Is not the wonderful, almost unbelievable yield of 3724, bushels per acre a convincing proof? Don't stop and say it is impossible, just because you never did. Why? Because you have never had an opportunity before to procure this wonderful, mammoth-yielding corn. We offer it to you now for the first time. We know it is not necessary to urge you to order a big supply. We know you will do it. Every up-to-date farmer will plant, and plant freely, of this new record-breaking variety, as every farmer wants to make big money out of his corn. as every farmer wants to make big money out of his corn crops. The seed that will yleid you in abundance fine, big, well-filled ears is the winner. That's why our new Chief is the winner. Wealth must and will come to the man who grows this corn, therefore, get on the right track, step out of the rut, by ordering a few bushels today.

THE CORN WITHOUT A RIVAL

Our Great White Corn Offering in 1905 proved itself the leader in the white corn class, as we prophesied last season, when introducing its brilliant future. So it has come. Thousands of farmers and stockmen report enormous crops from this magnificent variety. The yield did you say? Here is a couple of letters. Read them.

magnificent variety. The yield did you say? Here is a couple of letters. Read them. They speak for themselves.

"Your White Star Corn which I planted this season, broke all records here. There must be something about your seed corn that is marvelous, as I have a triend who beat everything in his state (Kansas) with your 'Gold Bond' I tertainly am going to try some of that this year. My White Star yielded 23742 bushels per acre."

"White Star outskines anything ever seen here in the corn line. I purchased 10 bushels from you last spring and I trust you will not think me enthusiastic when I say it made me 10 times more money than any other investment I ever made. Success to you. If you have any new corns for 1906, please let me know. Your word is good."

N. J. Boden, Fremont Co., Iowa.

Need we say more? In our New White Star Corn you will find none of the bad qualities sustained by other white varieties and not only does it contain all the good points in the makeup of other famous varieties, but many more as well. We have used great care in selecting this wonderful new variety, and we have no hesitancy in saying it is without exception the finest and largest yielding white corn in the world today. it is without exception the finest and largest yielding white corn in the world today.

DESCRIPTION.

Stalk is of the most vigorous growth, being tall and of a beautiful appearance, with wide, medium length leaves extending thickly around joints, from which shoot ears in abundance. It is a very deep rooted Corn, hence it is not easily injured by wind storms. Neither are the roots near the surface, thus insuring you against any chance of being broken off, and the vitality of the plant sapped in cultivation. For a genuine perfect Corn in every respect, we are sure it will please you.

Price: 1 lb, 25c, postpaid. By freight or express, 8 lbs., 45c; per peck, 75c; bushel, \$1.25; bushel, \$2.00; 5 bushels, at \$1.85 per bushel.

PLEASE REMEMBER That all our seed corn is tipped before shelling, thus insuring you with the most perfect seed at all times. If you are a stock man or farmer it will pay you two-fold to plant this variety in preference to all other white sorts offered you and we are sure that after you have done so you will appreciate our efforts in urging you to do so. Again we urge you earnestly to order early in order to avoid our being sold out.

We Are the Original Introducers. Please remember we introduced White Star last season. It was the first time it was ever offered. We have proof that other seedsmen filled orders for "White Star" after our stock was exhausted, thereby deceiving the purchaser.

Take No Chances.

Others may offer you White Star. Put them down as frauds. We are the only feed House that can supply you with the true-to-name stock.

Order Early, in order to obtain stock.

DO IT NOW.

Send us your order today. You will never regret the step. Last season we had an immense supply of White Star, but it was all exhausted long before seed planting time was over, and we were compelled to return hundreds of orders unfilled. Hence be wise. Order today.

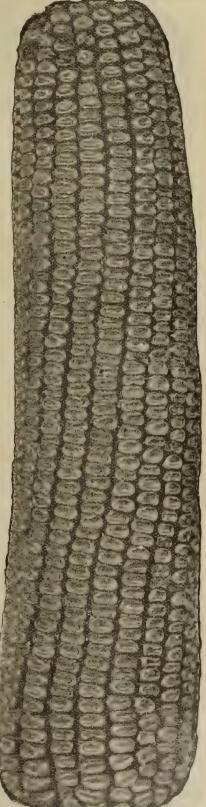

"I growed your' White Star' this season and must say it is the greatest Corn I ever saw, spite of the untavorable weather here it yielded over 150 bushels per acre."

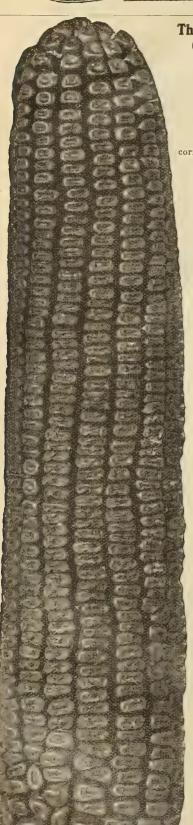

J. D. Brunswick, Van Buren Co., Ia.

"The 'White Star' Corn I purchased from you last spring turned out wonderful, yielding nearly 200 bushels per acre."

The Large Grained Variety The Small Cob Variety

Another Big 1906 Introduction. The Corn Without a Peer, Without a Rival.

Our new offering, Yellow Beauty, is as its name implies, a beautiful orange colored corn, of superior merit. Had we discovered this corn sooner, we would have offered it as our leader. A corn with ears of unusual length, evenly filled, big grains and a small cob, together with as enormous yield, such is the make-up of this wonderful new variety. No grower will make a mistake to devote a good share of his ground to this new Yellow Beauty. We class it as a 100-day variety, while it is really a 95-day winner. On our trial grounds, where we tested it, it proved itself the firmest, largest grained and smallest cob variety we ever saw on the market. Owing to its extreme beauty it will prove a bonanza to the grower.

READ DESCRIPTION.

The ears are large, handsome and well filled from butt to tip. The cob is very small, in fact, a couple of grains will more than reach across it, it is early, sure to mature from 95 to 100 days. It generally produces 3 to 4 well developed ears to a stalk. The stalks grow from 8 to 12 feet in height. The ears growing midway, it is a natural yielder in spite of excessive wet or dry weather; for latitudes where heretofore corn would not thrive our Yellow Beauty will prove a winner. This wonderful new corn combines more merit than any other corn ever discovered in this class. It will produce twice the amount on poor soil than any we have ever tried. It is the corn for you, Mr. Farmer. It is the corn for you, Mr. Stockraiser. It is the corn for everybody, rich or poor, in fact it is the ideal corn of the corn world, and is surpassed only in a few points by our Golden Chief and Gold Bond.

Now we leave it to you. We want you to try it, we want you to report to us your results next fall. We know what you will say. You will say it is the greatest, the grandest and the handsomest corn you ever saw. Order early, as there is sure to be a big demand. Price: 11b 25c; postpaid. By freight or express, 81bs (will plant one acre) 40c; pk 65c; ½bu \$1.25; bu \$2.25; 5 bus at \$2.00 per bu.

Reports From Growers, on "Yellow Beauty"

As is our custom before offering a new variety of corn on the market after we have discovered same, we forwarded six different lots of seed to six different corn growers, in six different states, instructing them to plant, and report as soon as the crop had matured. Here are the six different reports:

From Missouri.

"Yellow Beauty produced an enormous yield, a close second to Gold Bond. The wet weather did not seem to affect it. I predict fame for this variety."

From Iowa.

"The Yellow Beauty Corn received from you last spring proved one of the best on my entire list Ears were large, handsome and solid, and the stalks very productive."

From Hansas.

"The Yellow Beauty Corn proved a beauty, in fact, it was without exception the finest corn I ever saw."

From Nebraska.

"Will make my report on Yellow Beauty, brief—It was elegant; I tested it in drought and its resistance was something marvelous. The yield was big as well as the handsome orange colored ears."

From Illinois.

"Your Yellow Beauty was right abreast of Golden Chief and Gold Bond, all three varieties proved themselves the finest ever grown here."

From Ohio

"The disagreeable testing weather here did not affect Yellow Beauty. It is indeed wonderfully productive as well as a handsome looking variety.

A Word About Ordering Seed Corn.

Last year we were unable to fill all our orders for seed corn. The demand being far beyond expectations, hence we returned money for several thousand bushels, much to the disappointment of our customers. This year we have provided for a large demand, and while we are already booking hundreds of orders, we feel that we will be able to fill all orders, but to insure you with obtaining a supply which you had figured on we would advise you to order early, or if you prefer we will book your order and ship at any time you advise. This way it will insure you with being able to obtain your stock of seed corn without question.

We want to urge you to try our new varieties. We believe that you will agree with us that it is for your own benefit as well as for ours, and you may rest assured that each and every order for seed Corn, whether it be for a single pound or a carload lot, will receive our careful and prompt attention.

Yellow Clarage. ihis part of the country.' Mr. John McCleary, of Douglass Co., Neb., writes: "Of all the handsome, large yielding, pure golden yellow corn I have ever seen, your 'True Yellow Clarage' takes the lead. It is superior to any other variety of corn, both in appearance and productiveness."

Mr. Joseph Daniels, of Umatilla Co., Oregon, writes: "I was sorry that my second order for 'Yellow Clarage' reached you too late, as I am positive I would have been a good deal of money ahead this fall, had I received another supply of seed corn like the shipment just received."

NICHOL'S YELLOW

Our new 90-day Dent Corn, now offered for the first time.

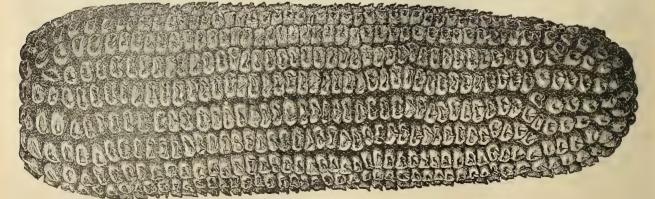

Expert corn growers everywhere predict for this new corn a golden future. It is so much superior to the famous Iowa Gold Mine there cannot begin to be any comparison. From every point, depth of grain, smallness of cob, productiveness and yield, our new Yellow Dent will surpass Gold Mine 3345 per cent. Be o e of the first in your neighborhood to grow this money making sort. You will find no suckers or barren stalks in this variety, in fact it is the dent corn we have all been looking for. It is much larger than Pride of the North and heavier, two ears of this sort weighing as much as three ears of Gold Mine, owing to the extreme smallness of the cobs, which weigh only about 5 or 5½ pounds to the bushel. This is a point that cannot be equalled by any other corn. In order to obtain this wonderful new variety, you must purchase it from us, as we are the sole introducers, and this is the first time it has ever been offered for sale. We confidently recommend this variety as the acme of perfection, and urge you to plant it, and plant it freely.

Nichols' Yellow Dent will prove a magnificent corn to grow for main crop, indeed we predict you will plant no other when once you have tried it. You will find this corn ready to crib long before your home grown varieties. Now do not wait until after our stock is exhausted, but send us your order today.

This famous variety is too well known to need any introduction. Everyone who has tried it is enthusiastic in its praise. While this, or none of the other varieties listed on this page can begin to compare with our new offerings listed on the preceding pages, yet this sort we will admit is one of the best varieties sold by other seedsmen. It is a medium early, ripening a few days later than Pride of the North. Ears of good size and symmetrical. Color, a bright golden yellow. Grain very deep; cob small and therefore dries out very quickly as soon as ripe. It has received everywhere the most cordial endorsement as "one of the best," and "the most profitable varieties ever grown."

Iowa Gold Mine.

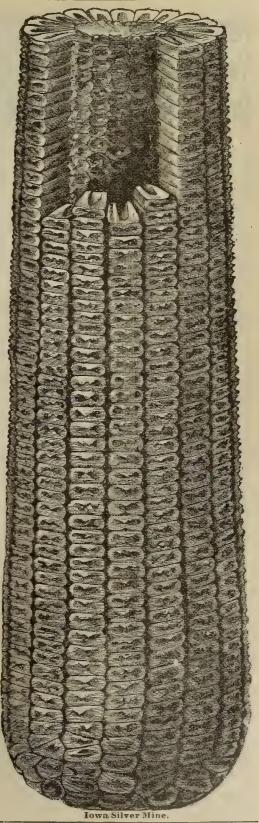

HICKORY KING—This white corn is a great favorite everywhere. So large are the grains and so small is the cob that on an ear broken in half a single grain will almost completely cover the cob section. It is of a strong, vigorous growth; the stalks are deep rooted, taking a firm hold in the ground and stand upright. It yields splendid crops on light soil, and is undoubtedly one of the most productive white field corns in existence. Frequently grows with two ears to the stalk. Price: 1lb 20c; postpaid. Champion Early White Pearl.

'CHAMPION EARLY WHITE PEARL.

The earliest snow white Dent Corn. Grown extensively by gardeners for roasting ears. It is an immense yielding variety and very uniform in shape, size, etc. Hence its great market demand. For feeding and a general crop corn it is unexcelled, growing as it does, very early, it thoroughly matures. The ears grow very large, the cob small; in fact, two of the large, pearly-white grains will more than cover it. Price-11b 20c; postpaid. Monarch White Rice

This celebrated variety is being widely advertised and introduced throughout the country, it being an ideal all-purpose corn. The butts and tips being well filled. Much has been written by experts regarding the good qualities of this corn in Agricultural papers throughout the country, in fact it is one of the most popular varieties in the Central States. The ear is of an excellent shape, growing from eight to 10 inches long and from 20 to 24 rows to the ear, it is very productive and solid and matures in from 95 to 100 days. Owing to its very beautiful cylindrical shape it is an ideal sort for exhibitions, having carried off many high honors at Fairs and Corn Shows. Pride of the North

A very early Dent variety grown everywhere. Stalks small, with broad leaves; ears are short, 12 to 16-rowed, and carry grains clear to the tip. On good corn land it will yield as much as any larger eared variety; owing to its small size, it can be planted closer. Its chief use, however, is for planting late in the season. About 90-day. Improved Leaming

This famous variety has probably made the corn growers throughout the United States more money than any other standard sort, being introduced at a time when such corn as ours listed on the preceding pages was unknown. This corn was originally originated by Mr. Leaming, the famous originator of Ohio, and still retains the same characteristics that made it famous. In fact it is one of the best general-purpose varieties in use today. Classed as 100 to 110 days in ripening. We have known it under favorable conditions, to mature in less time. Any farmer wishing to plant for general crop cannot do better than when he selects this variety. Price:

NICHOL'S WALL STREET FAVORITE.

The Wonder of the Wheat World. The Earliest, Largest and Most Productive Wheat Ever Known. All Records Smashed. 1905 Crop 83½ Bushels Per Acre.

READ THESE TWO TESTIMONIALS. WE REGRET WE HAVE NOT SPACE TO PRINT THOUSANDS.

"NICHOL: Your WALL STREET FAVORITE is the king of all wheat. I can hardly realize that a wheat could yield as it has. I had do acres. I only regret now that I did not have 600. I twoold willingly pay \$5.00 per Bushel for the seed in preference to paying 50 cents for any other kind. Success to you." Frank Wisenbaugh, Grant Co., Okla.

"Hurrah for NICHOL'S WALL STREET Bushels grown on the same land that heretoire yielded 25 to 30. Can you beat it? If not, I will beat it next season. I am going to sow new ground and I am positive I will pass the 100 Bushel mark. Gentlemen, your wheat is a wonder." Geo. J. Bidwell, Dickey County, North Dakota.

Just Imagine had you have raised a crop of Nichol's Wall Street Favorite this season, the amount of money you would be ahead today. Think of the coming crop, it will do just as well. Remember, it is not aclimated to any special wheat region, as a great many other varieties are, but instead, it has its same yielding powers regardless of locality.

Nichol's Wall Street Favorite

Is a smooth, strong, healthy Fall and Winter Wheat, and is seldom troubled with insects that affect other wheats. The straw is very long, with big, full, solid heads; in fact, it is the wheat that will make any man dollars. Price—Pk 65c; ½ bu. \$1.15; bu. \$2.00; 10 bu. at \$1.80.

Nichol's New Prosperity.

A close second to our famous Wall Street Favorite with the exception that it is about 5 to 6 days later. A large yielder, a sure cropper, and an ideal variety to plant with Wall Street Favorite. By the time you have Wall Street Favorite harvested, New Prosperity is ready to cut. We could write pages of the good qual ties of this new smooth variety, but for lack of space we must omit it. Price—Pk 50c; ½ bu. \$1.00; 1 bu. \$1.75; 10 bu. at \$1.65.

Pedigree Fultz (Smooth).

Its yielding powers throughout the North and Northwest is superior to any of the other old-time varieties. Our customers tell us that the main trouble they have in securing this variety from other houses is the fact that it is mixed with common sorts. Our stock is "Pure and Sure" and true to name, being of uniform size and shape throughout. Price—Pk 50c; ½ bu, 85c; bu, \$1.50; 10 bu, at \$1.40.

Fulcaster (Bearded).

The famous Fulcaster is too well known to need any introduction. As a big crop producer it ranks high, owing to its bearded nature. It is a very hardy variety. In fact, it is an ideal wheat in every respect. Price—Pk 50c; 42 bu, 90c; bu, \$1.75; 10 bu, at \$1.65.

SPRING WHEAT.

Macaroni Wheat.

This is the wonderful new wheat that has set the world to talking. Reports of enormous yields come to us from all quarters. It is heartly endorsed by the United States Department of Agriculture; is a great drought resister, and, in fact, one of the leaders in the great wheat belt region. We have an excellent stock of the seed. Price--Pk 75c; 42 bu. \$1.25; bu. \$2.00; 10 bu. at \$1.85.

KENTUCKY BLUE GRASS—(14lbs per bu). Also called June Grass and Spear Grass.

Very valuable and exceedingly popular as a pasture grass. Is too well known among our stock raising friends to need any comment. It is also valuable as a lawn grass, but we advise sowing a lawn grass mixture such as our "Havalawn," because it contains some Kentucky Blue Grass and White Clover. Kentucky Blue Grass forms excellent pasturage for all kinds of stock and in many sections all winter long. It also makes good hay. (Beware of Canadian Blue Grass, which

For lawns see page 77.

RED TOP—A very hardy native perennial grass, succeeding best on moist land. It accommodates itself to a variety of soils, however, even to quite dry situations, and stands our hot climate admirably. It is, perhaps, the most permanent grass we have. It remains green for the greater part of the year, and its long, trailing stems form a very close, matting turf that is not affected by trampling. Sown largely in marshy land and slough, price: 1lb 10c; 10lbs \$1.20; 100lbs \$1.20; 100lbs \$8.50; Choice seed in chaff, price: 1lb 10c; 10lbs \$75c; 100lbs \$4.25.

ORCHARD GRASS—(Rough Cock's Foot). (14lbs per bu.) A rather coarse perennial grass, that forms dense tufts, recommended for partially timbered soils of the central states. Flourishes best in the shade, making it just the grass for sowing where there is timber. It is a deep rooting grass, withstands drought remarkably well, is relished by all live stock and is very quick to recover from close cropping. Flowers in June; height 2½ feet. Price: 1lb 30c; postpaid; by freight or express: 1lb 20c; 10lbs \$1.60; bu \$2.20; 100lbs \$1.275.

ENGLISH PERENNIAL RYE GRASS—(141bs per bu). This grass is of as great value to Great Britain as Timothy is to this country. It is invaluable for permanent pastures, for hay, if cut when in blossom, and for lawn mixtures. Height 15 to 24 inches. 11b 25c; postpaid; by freight or express, 11b 15c; 101bs \$1.15; bu \$1.50; 1001bs \$7.00.

ENGLISH BLUE GRASS—(141bs per bu). (Meadow Fescue). A valuable pasture grass. Its long and tender leaves are much relished by all kinds of stock. Cured like Timothy, yields a very superior quality of hay. Also called Sweet Grass, It is one of the earliest in the spring and latest in the fall. Height, 18 to 24 inches. Price: 11b 25c; postpaid; by freight or express; 1 lb 15c; 10 lbs \$1.25; bu \$1.50; 1001bs \$8.00.

ITALIAN RYE GRASS—Similar to the English Rye Grass. Very nutritious and valuable for pastures, especially for early sheep feeding; also excellent for lawns. Height, 18 to 30 inches. Price: 11b 25c; 101bs \$1.00; 1001bs \$7.00.

WATER, OR FLOATING MEADOW GRASS—(14 lbs per bu). Excellent pasture grass for very wet situations. Price: 11b 50c; postpaid; by freight or express; 11b 40c; 101bs \$3.25; bu \$4.25; 101bs \$22.00 very wet situations. lbs \$28.00.

TALL MEADOW OAT GRASS—(14 lbs per bu). This grass should be given the trial its merit deserves. It is a luxuriant grower for early and late permanent pasture. For hay it may be cut twice a year and for green soiling it may be cut four or five times in favorable seasons. It is very hardy, and withstands extreme drought and heat and cold. Height, 2 to 4 feet. Price: 1lb 35c; postpaid; by freight or express; 1lb 25c; 10lbs \$2.00; bu \$2.50; 100lbs \$16.00.

RED CLOVER—The most practical of all Clovers, being used for hay and pasturage, as well as for enriching lands. We carry three grades, to suit our different customers, our strictly "Fancy Recleaned" grade cannot be surpassed by anyone, and we strongly advise all to use this grade. Always bear in mind that it takes less seed when you sow the best. Hence, it costs no more than inferior grades. Our "Choice" grade is very near the same, and is what most firms seell for "Fancy." So, in comparing prices always remember our "Choice" grade price. The "Prime" grade is for those requiring a cheaper grade for sowing large acreages, for pasture lands, etc. Price: either grade, 11b 25c; postpaid, or 20c per 1b by freight or express: Fancy recleaned, 10lbs \$1.75; bu \$9.00; 100lbs \$14.25; Choice, 10lbs \$1.65; bu \$8.70; 100lbs \$13.75; Prime, 10lbs \$1.25; 100lbs \$11.75.

MAMMOTH CLOVER—(Sapiing), Grows much taller and heavier than common Red Clover, Produces an enormous yield and is of high feeding quality. It is a great soil enricher and is far cheaper than any other fertilizer. It will make your soils light and loamy. Do not fail to give it a trial. Price: Fancy Recleaned, 11b 35c; postpaid. By freight or express: 101bs \$1.75; bu \$9.00; 1001bs \$14.25; Choice, 1001bs \$12.50.

CRIMSON CLOVER.—(Scarlet Clover). This is a highly valuable variety on account of its wonderful quick growth. Sown early in spring it furnishes a large crop of hay in May or June. It may be sown in midsumeror early fail as a catch crop for fine winter pasturage and for early so easily as Red Clover, owing to its mass of roots which spread out and go to the depth of furrow. For, hay, it must be cut before coming into full bloom. Price: 11b 25c; postpaid. By freight or express: 11b 20c; 101bs \$1.25; bu \$5.50; 1001bs \$8.00.

WHITE CLOVER.—A small creeping perennial variety, valuable for pasturage and lawns; its flowers are well liked by bees. Flourishes in a variety of soils, but prefers moist ground. It should be included in mixtures for permanent pastures and for lawns. It is effective in preventing the soil from being washed by heavy rains. Price: 11b 50c; postpaid. By freight or express: 11b 40c; 101bs \$2.50; bu \$14.00; 1001bs \$22.00.

ALSIHE OR SWEDISH CLOVER.—A very hardy variety that succeeds on any kind of soil and resists extremes of heat and drought. It is usually planted in mixture with grasses for pasturage and for hay; especially with Timothy. It is excellent for bees. When once established, it yields enormously and can be cut several times during the season. In recent years failures to secure a stand with Red Clover is of frequent occurrence. We suggest you trying Alsike. Many have done this to their advantage. It is similar to Red Clover in every particular of growth and feeding value. Pr

ALFALFA CLOVER.—The King of Forage Plants. Alfalfa is the corner-stone upon which is being built the prosperity of wide areas of our agricultural country-with its never-failing four to five crops of from six to twelve tons per acre. and having a value of \$12.0 to \$18.00 per ton; its great fattening qualities for horses, cattle, hogs, sheep and poultry; its drought-resisting qualities. After once being rooted, its perennity is more than two decades, while some claim for it immortality. There is not one crop known to the West that pays better returns in cost per acre. The plant is not so fastidious as to cost per acre. The plant is not so fastidious as to soils as has been thought, but flourishes bestina rich, loamy soil. It does not thrive where plant food is deficient. It grows in many dry places without irrigation, but where there is sub-irrigation in dry land, or good drainage in most soils, the plant will go fifty feet down and grow and bloom perennially. The best time to sow is in the spring. In some sections it is sown in the fall. Ground must be very carefully prepared. Price: 1 lb 35c; postpaid. By freight or express, 1 lb 25c; 10 lbs \$2.00; bu \$9.75; 100 lbs \$16.00.

GENUINE TUHKESTAN ALFALFA.—
Superior to the ordinary variety because of its greater ability to resist drought or stand higher temperatures. Parallel experiments show it to be superior to our Alfalfa in yield where only a minimum supply of water may be depended upon. It possesses a very large root system, and the general construction of the plant is to enable it to do this. Price: 1 lb 35c; postpaid. By freight or express, 1 lb 25c; 10 lbs \$2.25; bu \$11.50; 100 lbs \$18.50.

HONEY OR BEE CLOVER.—(Bokhara Sweet) Highly recommended by experimental stations; especially adapted to bees. The honey from it being as c'ear as a crystal. It is also highly recommended as a fertilizer, to be turned under when green. It is a very quick, vigorous grower, and possesses superior qualities to most other clovers. Price: 1 lb 60c; postpaid. By freight or express, 1 lb 50c; 10 lbs \$2-75; bu \$14.50; 100 lbs \$23.50.

MILLETS. (50 Lbs. per Bu.)

The several varieties will furnish food for live stock in the form of grain, fodder or pasture. Especially valuable in seasons when the hay crop is short. They make the best hay if cut when in blossom and carefully cured.

COMMON—Requires a dry, light, rich soil, and grows 2½ to 4 feet high, with a fine bulk of straw and leaves, and is excellent forage. Choice. Price: 1lb 35c; postpaid. By freight or express, 1lb 10 c; 101bs 35c; bu \$1.10; 100lbs \$2.00.

GERMAN, OR GOLDEN—It is usually given preference by those who use Millets over the common variety and Hungarian. It is a strong grower and will yield enormous crops of the finest hay, and should be cut before the seeds will harden. Can be sown late after some early crop, and if sown early will mature in time for the ground to be plowed for wheat, and it leaves the ground in fine shape for this purpose. For hay, sow from May to August 1st. For grain, sow in drills not later than June 20th. Fancy. Price: 1lb 20c; postpaid. By freight or express: 1lb 10c; 101bs 50c; bu \$1,60; 100lbs \$3.00.

HUNGARIAN—Commonly called Hungarian Grass. A quick-growing, valuable forage plant. May be sown at any time during the summer up to the middle of August. It has a long slender head, and is darker in color than the German. Price: lb 20c; postpaid. By freight or express: 1lb 10c; 10lbs 40c; bu \$1.25; 100lbs

CAT TAIL, OR PEARL—Does not at all resemble the ordinary variety of Millet. It is of tall growth and yields a large crop of fodder. No other crop yields so much forage as this when sown on richly manured ground. Price: 11b 25c; postpaid. By freight or express, 11b 15c; 10 1bs \$1.00; bu \$4.50; 100 1bs \$7.50.

SIBERIAN—More productive than the German or Golden, and of superior quality. Is superceding all other varieties in some sections, Price: 11b 20c; postpaid. By freight or express: 11b 10c; 101bs 40c; bu \$1.40; 1001bs \$2.25.

They are too well known in the South to need any description and have been used to such and extent in sec-They are too wen known in the sections close to us and further north that their adaptability to these latitudes is past the experimental stage. They are usually compared with clover. Their feeding value is about equal, and many claim them superior, and their fertilizing value for land is about the same as clover. They can be sown from corn-planting time, in the spring, to September 1st. It takes 1½ to 2 bushels for an acre. There are a large number of varieties, but we list only a few, and these are the most popular and best sorts.

WHIPPOORWILL.—The favorite early bunch-growing variety; has brown speckled seeds. 11b 20c; post-paid; by freight or express, 11b 10c; pk 50c; bu \$1.60; 10 bu@\$1.50.

CLAYS .- A favorite with some for hay. Makes a heavy growth of vine and is late in maturing. 11b 20c: postpaid; by freight or express, 11b 10c; pk 60c; bu \$2.00; 10bu@\$1.85.

BLACK.-Seed black; best sort of planting with Fodder, Corn, Rye, Oats, etc., when mowing and curing for hay. Will make an enormous growth of vine in a short time. Equal to either of the above in feeding value, and is possibly the best variety for poor soils. 11b 25c; postpaid; by freight or express, 11b 10c; pk 60c; bu \$2.00; 10bu@\$1.90.

NEW ERA.—The famous standard variety, grown extensively everywhere. 11b 20c; postpaid; by freight or express, 11b 10c; pk 50c; bu \$1.50; 10bu@\$1.40.

MIXED.—We always have a supply of mixed varieties; usually—a little lower in price because of this, and equally valuable for soiling. 1lb 20c; postpaid; by freight or express, 1lb 10c; pk 40c; bu \$1.40; 10bu@\$1.35.

CANADA FIELD PEAS.—Quite distinct from the Cow Peas, yet similar in all valuable properties as fertilizer, food, etc. 11b 20c; postpaid; by freight or express, 11b 10c; pk 60c; bu \$1.75; 10bu@\$1.76.

FIELD BEANS.

LARGE WHITE MARROWFAT.—Our greatest offering in Field Beans this season is our Large White Marrowfat. It is undoubtedly the most prolific bean grown; an ideal winter shelled variety. Pkt 10c; ½pt 20c; pt 35c; qt 60c; postpaid.

WHITE NAVY.—The standard White Bean, smaller than the above. ½pt 15c; pt 20c; qt 35c; postpaid. SEE PAGE 6 FOR PRICES ON LARGER QUANTITIES ON THE TWO ABOVE VARIETIES.

SOJA OR SOY BEANS.—Like Cow Peas, they are grown for the grain for soiling food, for ensilage, for pasture and for green manure. Their greatest value, however, will be found in furnishing food for

ensinge, for pasture and for green manure. Their greatest value, however, will be found in furnishing food for dairy cows, as they are in the proper condition for being thus fed at that season of the year when but few plants are available for such use. 11b 25c; postpaid; by freight or express, 11b 15c; pk 65c; bu \$2.50; 10bu@\$2.40.

YELVET BEANS.—Used almost exclusively in the South as a forage plant and also as a fertilizer for turning under in the same way as Cow Peas. Stock readily eat the vines and leaves, and the beans, when ground with or without the pod, are used in place of oats or corn, or mixed with them. 11b 25c; postpaid; by freight or express, 11b 15c; pk \$1.00; bu \$3.50; 10bu@\$3.25.

Nichol's New Improved Peachblow.

NICHOL'S NEW IMPROVED PEACHBLOW

This is the wonderful new potato which we introduced last season. It is the potato we attached so much faith to. It is the potato that more than fulfilled every promise which we made. In fact, it is the potato that has taken the entire country by storm. Market gardeners report it as the finest potato they ever raised, both in appearance and in quality. Our New Improved Peachblow for

Our New Improved Peachblow for the past three years has been tested with more than one hundred other varieties, and in every case it has proven itself superior to them all, not only in its enormous yielding capacity, but its improved size, the fine grain, the white mealy qualities and excellent flavor which has so long made the old Peachblow such a universal favorite. The potatoes are of a very uniform size, none growing too small but that they can be readily used. If is of a beautiful type, producing large, white, smooth potatoes, with handsome shallow pink eyes, giving them a very appetizing appearance when on the market. It is an excellent keeper and we have never known them to rot, even late in the

known them to rot, even late in the spring. One potato characteristic it does not contain, and that is it does not have any black or hollow core, in fact it is so much superior to any other Medium Late Potato there cannot begin to be any comparison. Adding to these points its great attractiveness is one of the main features. Market gardeners and others growing for shipping purposes should take into consideration that it gives to you an ideal potato in every respect. You who were not fortunate enough to obtain stock last season we urge you to try them this year. You will never regret the test. Order early, as there undoubtedly will be a big demand. Price: 1 lb 30c; 3½ lbs \$1.00; postpaid. By freight or express; ½pk 50c; pk 75c; ½bu \$1.25; bu \$2.25; bbl \$5.75; 5 bbls \$27.00.

"I did not have much faith in ordering your New Peachblow. Now that I have tried them I would plant no other." Albert Harrington, Cook County, Ill.

"Both your Improved Peachblow and 'King' of Missouri Potatoes proved to be the best and largest yielding potatoes we ever saw." E. D. Briggs, Douglas Co., Neb.

"' 'King' of Missouri Potato certainly is a wonder. From the small lot I obtained from you, I raised nearly 500 bushels of monstrous large mealy potatoes." Frank Saunders, Richmond Co., Ohio.

"My neighbors say they will plant no other kind of potatoes next season than your improved Peachblow. I wish you could see my crop, it is enormous." Jasper McGowan, Linn Co., Iowa.

"King" of Missouri

Another new offering which we introduced last season, and which proved itself superior to the claims we made for it. Not-withstanding the enormous price of \$1.50 per peck, which we were compelled to offer them at last season, we could not begin to supply the demand. It seemed to be just the po-

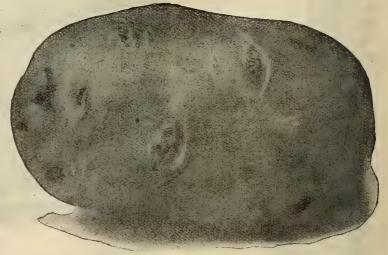

It is a beautiful improved variety over all other medium late sorts, such as Rural New Yorker and Carmen No. 3. The winning point of this new potato is that practically all the potatoes grow to an enormous size, yielding no small ones as do other varieties. The term "Jumbo" would really apply to it for a name, notwithstanding its well earned title, "King" of Missouri.

tato everyone was looking for.

It is most desirable of shape, very smooth and regular in form, and with a handsome russet skin with an unusually thick netting, making it an ideal shipping, as well as a first-class keeping Potato. It is of the finest quality, an excellent cooking variety, being of a dry, white, mealy nature, and of a delictous flavor. It will undoubtedly prove the favorite market sort and no one will dowrong to devote a large share of their ground to this new variety the coming season. Prices 11b 30c; 3½lbs \$1.00; postpaid. By freight or express: ½pk 50c; pk 75c; ½bu \$1.25; bu \$2.50;

NICHOL'S KING OF EARLIES.

The Handsomest and Earliest Potato Ever Offered.

Nichol's King of Earlies.

Introduced by us last season, it now ranks, as we predicted, "King" of them all. So enthusiastic are growers who raised this mammoth Early last season that they yow they shall never plant any other. It is a handsome oblong vaany other. It is a handsome oblong variety, maturing from a week to 10 days before its nearest rival, it has proven itself superior to all other early varieties. It is of a very thick skin, with a beautiful pinkish color, with shallow fair sized eyes, and is the gardener's main potato for market use. It is wonderfully productive, 10 to 15 marketable size prototoes having heep produced from 2 ly productive, 10 to 15 marketable size potatoes having been produced from a single eye, and the production per acre is immense. Its keeping qualities are better than any other early sort, the tubers remaining sound and in the best of condition until late in the spring. Remember we are the sole introducers of this wonderful early variety, which is of choice Northern grown stock grown. of choice Northern grown stock, grown for us under contract in the famous Red River Valley. It does not boil to pieces as do other early varieties, and it is of better quality. Early Potatoes always bring good prices, even if they are of inbring good prices, even if they are of in-ferior quality. But when you have a large size, good shape, handsome color and beauty added with the superb qual-ity, as is in our New Nichol's Extra Early, it means money in your pocket. Rural New York No. 2.

This famous late sort we concede as one of the best of the well-known varieties. Much has been written by the press throughout the country on its good merits. It is quite distinct in appearance; flesh white; quality excellent; shape nearly round, somewhat flattened. Tubers large to very large, but not rough or irregular; eyes quite small; form symmetrical. One of the best late potatoes grown. An enormous yielder. Price: ½pk 25c; pk 45c; ½bu 75c; bu \$1.40; bb 12.75; bb 16.18 90 grown. An enormous yielder. bbl \$3.75; 5 bbls \$18.00.

This great potato was originated by Mr. E. S. Carmen and is different to other famous varieties that so soon die out. Probably because it is a wonder everywhere and retains its popularity. It is little affected by drouth or bugs, and is a No. 1 yielder, of perfect form, almost every potato being of uniform size or shape, averaging nearly a pound each in weight. It has but few eyes, which are very holow. Skin and flesh extremely white, no dark or hollow parts, and its cooking qualities are exceptionally fine. Price: ½pk 25c; pk 45c; ½bu 75c; bu \$1.50; bbl \$3.75: 5bls \$18.00; \$3.75; 5bbls \$18.00.

Our stock of this standard old variety is grown for us under special contract by one of the greatest potato specialists in the Red River Valley. Much need not be said of this great potato. Among the standard early varieties it undoubtedly stands at the head of the list. It is a favorite everywhere, and one of the market gardener's money makers. However, neither this or any of the other varieties listed on this page (except our New White Triumph) can begin to compare with our great offerings on the preceding pages. Early Ohio is-now widely known and is the popular sort for early planting. It has the advantage of being fit for use and sale even before becoming fully ripe. We have a splendid stock, and we urge you to order early. Price: ½pk 30c; pk 50c; ½bu 85c; bu \$1.50; bbl \$4.00; 5bbls \$18.75. \$1.50; bbl \$4.00; 5bbls \$18.75.

Extra Early Eureka.

A grand, new, extremely early Potato. Unlike other extra early varieties, the Eureka does not produce a crop of walnut-size tubers, but all are uniformly large and smooth. It is an extra early and a heavy yielder. It is an excellent keeper for such an early variety, and the quality is choice. It is indeed a highly valuable variety and we are not too strongly recommending it when we say to every Potato grower—plant Eureka this year. Price: ½pk 35c; pk 60c; ½bu \$1.10; bu \$2.00; bb1 \$5.00; 5 bb1 \$23.00.

Early Triumph.

This variety matures its crop at least a week in advance of the Early Rose. Potatoes are of medium size, round and uniform in shape, and but very few small ones; eyes are slightly depressed; color a beautiful light red. One of the best extra early market varieties, especially for the South. Price: ½pk 30c; pk 50c; ½ bu 85c; bu \$1.50; bb1 \$4.00; 5bb1 \$18.75.

Early Rose.

No introduction is necessary for this standard productive variety. For earliness, goodness of quality and a No. 1 market sort, it stands in the top rank. Price: ½pk 25c; pk 45c; ½bu 75c; bu \$1.40; bbl \$3.50; 5bbl \$17.00.

Snow Flake.

Here is a Potato we take off our hat to. It is the Potato that has been yielding record-breaking crops everywhere, the potato you have seen advertised under assumed names and sold for fancy prices; in fact, it is a close second to our new introductions. The tubers are of a good, medium and uniform size; elongated oval, compressed, exceedingly symmetrical and remarkably uniform. In quality, we do not hesitate to say that nothing can surpass this variety; its mealiness, its pure, delicate navoy, and the evenness with which it cooks through, have never been eclipsed by any potato. We offer only the genuine stock. Price: ½pk 35c; pk 60c; ½bu \$1.00; bu \$1.75; bbl \$4.50; 5bbls \$21.50.

New White Triumph.

This remarkable early potato has completely captured the country everywhere. Our customers are shouting words of praise for earliness, quality and yield. It is a record-breaker. It is a magnificent white, extremely fine potato, a great improvement on its famous parent variety. It is a potato that when you once plant you will plant no other. It will please and pay you ten fold over any other improved standard variety. We have tested it in every shape and form, in drouth and in wet. Our test report always shows it a marvel. We want everybody to try it this season. You will be more than delighted. Whether for market or home use, you will find it the "perfect variety." Price: ½pk 40c; pk 75c; ½bu \$1.20; bu \$2.25; bbl \$5.25; 5bbls \$23.00.

The Dahlia is one of the showiest of all autumn flowers. Commencing to flower in July, they are a perfect blaze of bloom until stopped by frost. Especially fine for cut flowers. We know of nothing more showy for table decoration than a loosely arranged bouquet of long-stemmed Dahlias. We spare neither time nor expense in testing the new varieties of both domesticand foreign production, and feel justified in claiming that our collection is unequalled, all having been selected for their free and continuous-flowering qualities, purity of color, perfection of form, general excellence and adaptability to the most ordinary garden culture.

TUBEROSES.

DWARF DOUBLE EXCELSIOR PEARL—Tuberoses now rank in popularity with Asters, Pansies and Nasturtiums, and are even easier to raise. Their flower spikes last longer after cutting than Gladioli, Dahlias or any other bulbous plants. In delightful fragrance they rival the Rose and Violet. This is the best double variety. They ought to be in your garden if any flowers are. Per dozen 35c; three for 10c; postpaid. By express 25c per dozen.

Finest of all the Iris family. The flowers are of immense size, from 6 to 8 inches in diameter, and of the most beautiful and delicate shades. They are perfectly hardy, and flower in great profusion during June and July. A well established plant gives a dozen or more flower stalks 2 to 3 feet high, each stalk producing 2 to 4 enormous blooms. The Iris thrives best if planted in a moist soil; if this cannot be had, should be plentifully supplied with water while growing and flowering. The clumps we offer are large, 25c each; \$2.50 per doz; add 10c per clump for postage.

NEW DIANTHUS-SNOWDRIFT.

As its name implies, this new offering is as pure and white as the towering snowdrifts, which, by the way, they also resemble when massed in beds of almost any size. A rare new variety which undoubtedly will rank among the most valuable annuals we possess. Its brilliant colors, and extremely free and long-lasting bloom render it the ornament of almost every garden, they being elegant for bouquets, vases and room decorations. Our new Snowdrift may be classed the Ideal Dianthus, Its robust and freely-branching plants grow about a foot high and most of them throw up a multitude of strikingly large flowers, 3 to 4 inches across, very double and with finely laciniated petals of the purest white, the effect in the mass being that of thickly scattered clusters of snowflakes. Many of the visitors to our trial grounds this summer were greatly impressed with this novelty, everyone being of the opinion that it will soon become the favorite Dianthus everywhere. St. L. S. Co.'s NEW HOHENZOLLERN ASTER.

Our great new offering in Asters this season surpass any former varieties ever introduced Our New Hohenzollern, we consider the finest Aster ever discovered. The plants are tall-growing, the flowers branching and bearing in profusion on very long stalks of from 1½ to 2 feet in length, measure up to 8 inches across, being densely double, finely curled and bearing the greatest resemblance to a large-flowered Japanese Chrysanthemum. Unequalled as a cut-flower and highly effective for tall beds and groups. It is much superior to the Giant Comet or Ostrich Feather type of Asters, being much larger than the Giant Comet, the petals longer and more curled and twisted, and produced in greater abundance. Borne on long stems, as they are, make them cut-flowers par excellence. We cannot too strongly praise the wonderful merits of this new Aster. Try them this season and be convinced. We offer the New Hohenzollern in the following colors: White, syringe blue rose and mixed. Price per pkt 10c; postpaid.

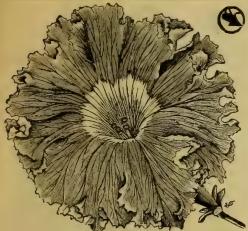

St. L. S. Co.'s WHITE HERCULES ASTER.

Originated by the discoverer of the "Hohenzollern" Aster, and now offered for the first time. In appearance it very much resembles the illustration of the "Hohenzollern" shown on this page. It is a beauty and we are proud to be able to offer it to our customers this season. The plants throw up a very strong stem, 15 to 20 inches high, which begins to branch about 4 inches from the ground and bears at its summit the main central flower, while on the side shoots appear 4 to 6 secondary blooms. The latter, borne on remarkably strong stalks, are all of the purest white, with very long petals and attain the enormous diameter of from 6 to 7 inches, It

NEW EVERBLOOMING DOUBLE

NEW EVERBLOOMING DOUBLE
ANNUAL HOLLYHOCK.

As will be seen by the illustration this beautiful new Double Hollyhock supersedes anything ever before introduced in this family. It is indeed truly one of the greatest achievements of modern times. Blooming as it does, the first season beginning about the first of July. Its handsome colors are comprised (each flower being fringed in the manner of a Petunia) in all shades of white, flesh color, apricot, yellow, pink carmine, deep red, purple, black, etc., as well single as double. They bloom until affected by increasingly severe frost. As will be seen, the leaves of this novely remain bright and green until the autumn. As our old blennial Hollyhocks suffer from frost, and as it is not always possible to protect them adequately, hence this new Hollyhock will undoubtedly meet a long felt want. We offer it now for the first time and urge our customers everywhere to plant freely of it this season. Price per pkt 25c; postpaid.

St. L. S. Co's NEW LILIPUT HELIANTHUS

This beautiful new dwarf variety of miniature
Sunflower we predict will become the most popular Helianthus ever offered. Being of a very compact habit, it has a creeping growth, similar to verbena. The plants attain a height of from 6 to 8 inches and measure from 12 to 15 inches in diameter. The flowers are bright yellow, showing in the center a dark disk. Sow about the beginning of April in frames or in pots. By the beginning of May the young plants can be transplanted. Price, per pkt 10c; postpaid.

do every lover of flowers will do every lover of flowers will merit its appearance. It is a strain of incomparable beaustrain of incomparative beau-ty, size and luxuriance. Most of the flowers are exquisitely ruffied or fringed on the edges, and are of enormous dimensions, but their great merits lie in the tremendous varieties of colors, markings, veinings, blotches and strip-ings, in the most grotesque and beautiful combinations; some with charming deep throats of yellow, white, black, green or maroon, run-ning off into intricate veins. Some of the colors are rich and gorgeous and others of lovely delicate shades.

St. L. S. Co.'s. MIGNONETTE

Our Mignonette offering this season we believe is the finest obtainable, our "Red Gollath" being by far superior to any-thing we have ever seen heretofore. The spikes of flowers are immense, measurspikes of flowers are immense, measuring 6 to 8 inches long by 2½ inches in diameter, and are compactly filled with giant florets, measuring ½ inch across and packed full, even in the center, with anthers or three times as many as other Mignonettes; hence making this variety a double Mignonette. The color of the florets—fire red—is strengthened on account of the seenting almost solid columns of brilliant red

density of the florets and spikes, thus presenting almost solid columns of brilliant red,

This splendid new variety, as illustration shows, is a very dwarf compact growing. Bush-Verbena with large trusses of pure flesh-colored flowers, a shade previously unknown in this class. Excellent for dwarf teds and borders, and in fact superior to any of the other verbena family, it producting mammoth trusses of flowers of unusual size and coloring, the colors embracing all the most desirable markings, and are very fragrant. We offer this new variety with the assurance of it more than pleasing any one who plants it. Our supply is limited, hence we advise you to order early Price per pkt 15c; postpaid. season. Orders poured in from almost every corner of the globe and the reports received from customers are most gratifying. Again we offer it as the finest and most valuable of the Maximum varieties. We have no hesitancy in saying it is superior to any other Chrysanthemum ever offered. tancy in saying it is superior to any other Chrysanthemum ever offered. It is of a very set growth, averaging only about 18 inches high. Very floriferous, the plant is of globular shape and very decorative, the flowers open to 4 inches and more in diameter, and give an abundant and very handsome cutting material. Contrary to other varieties listed by other houses this comes true from seed. It is not particular as to soil, coming up every summer in the same beauty, for many years and resists the most severe winters. We can especially recommend it, as its pure white flowers surpass all other yarieties. Price per pkt 10c; post-paid.

The wonder of the flower world. The Zanzibar or Sultans Balsam. the most beautiful flowering plant we have ever introduced. Beau-tiful beyond description, ideal for either pot or garden culture, a tender perennial that can-

not be surpassed. We urge every lover of flowers to plant this new offering this season. It produces waxy bright flowers almost continually winter and summer; in fact, it may be classed an everblooming discovery. Grows about one foot tall, and of a handsome rose color. Price per pkt 10c; post-paid.

NASTURTIUMS.

For ease of culture, duration of bloom, brilliancy of coloring and general excellence, nothing excels Nasturtiums. All they need is a moderately good soil in a well drained, sunny position, and from within a few weeks from the time they are sown until hard frost comes there is an endless profusion of their gorgeous blossoms.

TALL, OR CLIMBING VARIETIES.

The climbing Nasturtiums are considered better than the dwarf for every purpose are considered better than the dwarf for every purpose save one. That is where a well-shaped, compact plant is required for bedding or bordering. For cut flowers the tall varieties furnish the largest supply. The plants need not always be run up on something, as they will do very well if allowed to scramble at will over the ground. However, it is for trailing over fences, trellises and the like that they are most commonly used. Do not sow too

HYBRIDS OF MADAME GUNTER.—The richest strain of all. These new Hybrids make a strong growth, climbing about six feet and covered from spring to fall with large, substantial flowers of the most brilliant shades. "SHAW'S GARDEN" HYBRIDS. — The prettiest strain of Dwarf Nasturtiums. Worth ten times the price of the ordinary mixed. There's really no comparison in the beauty and color of the flowers. They are larger, produced in greater profusion, with longer stems, and in colors much more varied in the hundreds of beautiful shades not found in any other mixture.

The stems are long and the flowers keep an unusually long time after cutting. We introduced this strain last season and the enthusiastic reports from our customers, we are pleased to say, were more than gratifying. We are confident that this will become the only Nasturitium mixture that will be sown by our customers. It cannot be beat, and is well worthy of its name. The Greatest Talker

"Our beautiful parrot arrived two weeks ago, hale and hearty after his long trip from your city to Seattle, and is now the pet of the block in which we live. He is such a dear little creature, and husband and I would not part with him for the world. I never realized before that they were such companions. We call him 'Dick' and he is beginning to call us "Papa" and "Mama."

Yours very respectfully, MRS. J. Z. SNIDOR. Seattle, Wash.

"The parrot and canary purchased from you some time ago are the two finest species we have ever seen. The polly talks to the canary and the canary sings for polly. We would not part with then for requirings the ext." them for many times the cost." Yours truly,

FIVERY ORDER IS FILLED THE DAY IT IS RECEIVED

ST. LOUIS SEED CO'S. "SURE CUT" HARROW

THE FAMOUS U-BAR, ALL STEEL LEVER HARROW

St. L. S. Co's, "Sure Cut" All Steel Harrow,

This Harrow excels in strength, durability, beauty and simplicity.

Its Strength comes from a sensible combination of first-class materials. Every section is heavily braced, as

shown in cut.

Its Durability is beyond doubt, because of the fact that it is built of steel which is highly carbonized and which will not bend.

Its Beauty lies in its apparent lightness, but it is really one of the stiffest and strongest harrows made.

Its Simplicity will enable you to adjust quickly each and every tooth in it, to make them cut deep or shallow, as desired, or remove them entirely for resharpening.

In fact it is the lightest, the neatest and most durable harrow ever offered.

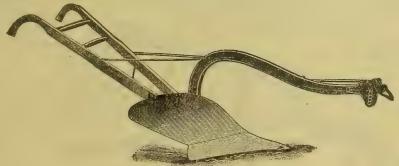

"MISSOURI KING" PLOW

Here we have it! The finest and best plow ever offered. We quote you a price on this plow that cannot be duplicated anywhere. Below we show you a steel beam mouldboard view.

Read, Read and order today. You never had such an opportunity to procure a first class plow at this price before. The "Missouri King" is adapted for the heavy soils of the Northern States. Mouldboard is soft center steel, thoroughly tempered and hardened, highly polished. Share of chilled cast iron. Extra high landside, hardened steel, with removable chilled cast iron heel, extra wide at bottom, giving large wearing surface and causing it to run steady. Furnished with hardened steel or crucible steel share when desired. The mouldboard is high cut and long, the turn is gradual and easy. Will clean the furrow perfectly. Handsomely finished. We can supply right and left hand wood or steel beam (state which you prefer).
